Great Minds

Student Internships 2016

The IBM Great Minds student internship competition provides you with the unique opportunity to work alongside world-class scientists in the leading industrial IT research organization.

The internships at IBM Research in Zurich (Switzerland) or Dublin (Ireland), will last between three and six months and take place in 2016 upon mutual agreement.

To participate in the competition, you must be nominated by one of your professors or a dean. You must submit a current CV and a short position paper, both in English, by 22 February 2016.

The program is open to all full-time students enrolled in a Master's program in Computer Science, Electrical Engineering, Physics, Software Engineering, Industrial Engineering or Service Science at a recognized university or college in central and eastern Europe, the Middle East or Africa.

Participants must be fluent in both written and spoken English.

"I am very excited to be here. I have the chance to work with highly skilled and passionate researchers who study a very large variety of topics."

Adela-Diana Almasi, Polytechnic University Bucharest, Romania

"I can't believe how much I'm enjoying this position. It has been a wonderful opportunity to see a great company and experience a different culture."

Janos Csorba, Budapest University of Technology, Hungary
